Dynamic Weekend Workshop

Natural Body Natural Mind *Bill Tara*

Ancient Wisdom for Modern Times

This book takes a radical look at why wealthiest society in history is producing a culture where degenerative disease, emotional stress and social discord are the norm. It explores how our modern enchantment with technology and unlimited economic growth creates a gap between our everyday actions and our true human potential. By focusing on the relationships between Humanity to Nature and Health to Culture, Food to Health and Health to Emotion Mr. Tara presents a vision of how daily actions can create a world that works for everyone. Natural Body / Natural Mind challenges the values of science, religion and the marketplace with a passionate appeal to compassion, common sense and the wisdom of the heart.

“Bill, I’ve read your book, ‘*Natural Body, Natural Mind*’ three times now and it has become my ‘go to’ book whenever I need to figure out how to articulate a theory or idea in a lecture or a class... or sort something out for myself.

I find that its wisdom works for both the beginner and the most experienced of those living naturally. For me, its message about living well takes on any number of issues that people face and strips away all the excuses not to live a better life.

I love this book so much. It sums up all I have learned from you over the years and illustrates why, to this day, I consider you my mentor and role model in the work that I do.” – Christina Pirello
