

Mastering the I Ching

A Workshop with Lily Chung Ph.D.

Chinatown, San Francisco July 25-26, 2009

Join us at The San Francisco School of Feng Shui in this dynamic weekend workshop based on Lily's best selling book – "Succeed Naturally, the I Ching Way – Unraveling the Wisdom of Natural Laws".

ABOUT LILY CHUNG

Lily is a world renowned expert in Eastern Metaphysics. She is the author of the pioneering 4 pillars astrology book: **Meng – Path to Good Fortune**.

Lily has a Ph. D. in urban geography from University of Minnesota and a BA from the Chinese University of Hong Kong.

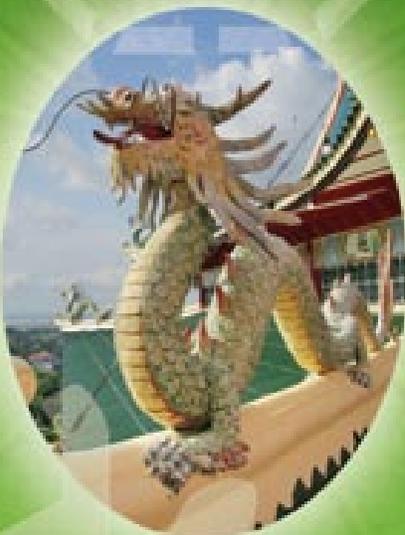

For almost 20 years, she has studied cosmic energy and has written 3 books on the subject. Lily holds workshops in Europe, Canada and California and has used the procedure helping thousands of people all over the world.

Lily has studied metaphysics since 1986 and has had field training on the physics of Feng Shui from a master in Hong Kong. Her academic background in Chinese classics and geography has made her a unique Feng Shui practitioner, enabling her to verify the natural laws of Feng Shui against the principles of geography for proper applications.

Lily has a passion for the truth and a reverence for life. Why were we born unequal? What is the root of this inequality? Why does a person whose given endowments don't change, go through a life of ups and downs? Given the endowments without our consent and the limitations, how do we attune to this cosmic inequality to lead a better life? Now, with the calendars on cosmic flows translated into English, we want to maximize its frequency and momentum.

Lily has just completed her fourth book, **Succeed Naturally the I Ching way**. This is an easy to follow guide book that offers insight into a different way to manage life issues using the authentic wisdom of the I Ching.

I Ching Wisdom

Day One

Properly balancing the yin and yang forces (my needs vs. others' needs) is the key to success and happiness. It is the fundamental law in feng shui design. This class discusses the strategy of I Ching laws to win in the following scenarios

Livelihood (# 5Hsu, peers competition)

Higher ground (advantageous position), # 11 Tai, Building Wealth

Lower ground (in a disadvantageous position), #12, Pi, obstruction

Under someone's wing, how to be a good transient dependent when, # 30, Li

Students learn the keys to open up the door to all of the I Ching wisdom by learning Lily's unique procedure. As the I Ching laws are the source of all Chinese metaphysics the class will also cover the applications to the Bazi (4-pillars) studies.

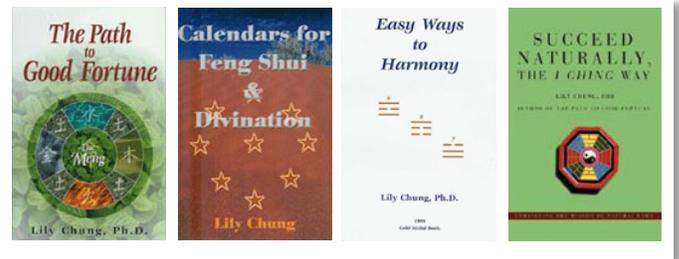

Day Two

Introducing the most powerful I Ching divination system based on individual birth data.

This is the only I Ching divination system using calculation of individual birth data, the most powerful but least known and least practiced metaphysical system in China. This unique system was first introduced and taught by Lily Chung to a small group outside China in 2008.

The system taught in the class offers the following messages:

Harmony index of our life force which determines the course of our life path.

Life hexagrams consisting of the money, fame and mentor factors, and luck cycle.

Succeed Naturally – The I Ching Way, a revolution in I Ching publications, is an easy-to-follow guidebook. All the laws are presented in straightforward language in the original themes of the I Ching, readily understood by anyone without previous knowledge on the trigrams or hexagrams. For avid readers, Lily Chung, Ph.D., guides you through the proper procedures of reading the I Ching laws by providing fifteen hexagrams that illustrate the ways you can apply the laws to your own life and become successful both personally and professionally.

By global consensus, the I Ching (Book of Change), the Chinese classic, is the best source of natural laws on how to meet and make changes successfully. Packaged into sixty-four themes, they cover laws on leadership to life management. Unfortunately, such laws have never been properly known to the public.

Whether you are a worldwide leader, a lawmaker, a feng shui practitioner, a wise individual who values life, or a caring parent who wants to share long-lasting wisdom with your children, Chung offers profound advice on understanding the natural laws that will guide you fruitfully through life.
