

# SACRED GEOMETRY and ALCHEMY EVENT OF THE YEAR

APRIL 2nd-13th  
New York City 2015

**April 2<sup>nd</sup> Thursday evening 7-9.30**

Wine and Cheese event with special guest teachers from Europe Michael Rice and Karaimi. Introduction to the workshops "The Geometry of Love" and "Sacred Architecture"

\$35

**Michael Rice** is a practical visionary, sacred architect, master geometer, natural designer, builder, healer and teacher. He skillfully bridges the old and new worlds to support people to connect with and express their deepest purpose and fullest potential in order to manifest beauty and harmony in their lives. He is a gifted seminar leader who is able to enthusiastically present and share powerful ancient wisdom and new transformational information in an easy and accessible way to allow people to enhance their innate creativity, access their bliss, and create a better world for all.

**Karaimi** is a soul healer, priestess of initiation into the mysteries of the Earth and the feminine. She is a modern woman connecting daily life with spiritual reality. She leads experiential workshops in the Czech Republic and abroad, incorporating powerful healing rituals using transformational sacred geometry, creative guided meditations and feminine initiations. Her work is highly transformative and grounded. She lives and works in deep respect and connection with nature in South Moravia, Czech Republic.

**April 3<sup>rd</sup> Friday 9.30-5 p.m.**  
**Workshop on Sacred  
Architecture with Michael Rice**

**Sacred Architecture** brings the Heart of the Earth into the Hearth of the Home. It can be defined as the *Art and Science of designing and constructing buildings, which create, support and enhance life and living systems.* \$150

In this event Michael will introduce and demonstrate the pure principles of how Nature uses specific patterns, forms and proportions (Sacred Geometry) to generate all that we see in the natural world, and all we can manifest in the built one. He will show how our bodies perceive the world around us, at a sensory level, and why we are particularly attracted to and positively affected by objects, places, people and situations that are fractal, harmonic and beautiful.

He will explore how the ancients used this knowledge to build their sacred structures and how we can use this vital information to design and construct our own sacred space at home or place of work. This seminar is for anyone who wishes to consciously affect change in their environment and to alignment with the geometry of life itself.

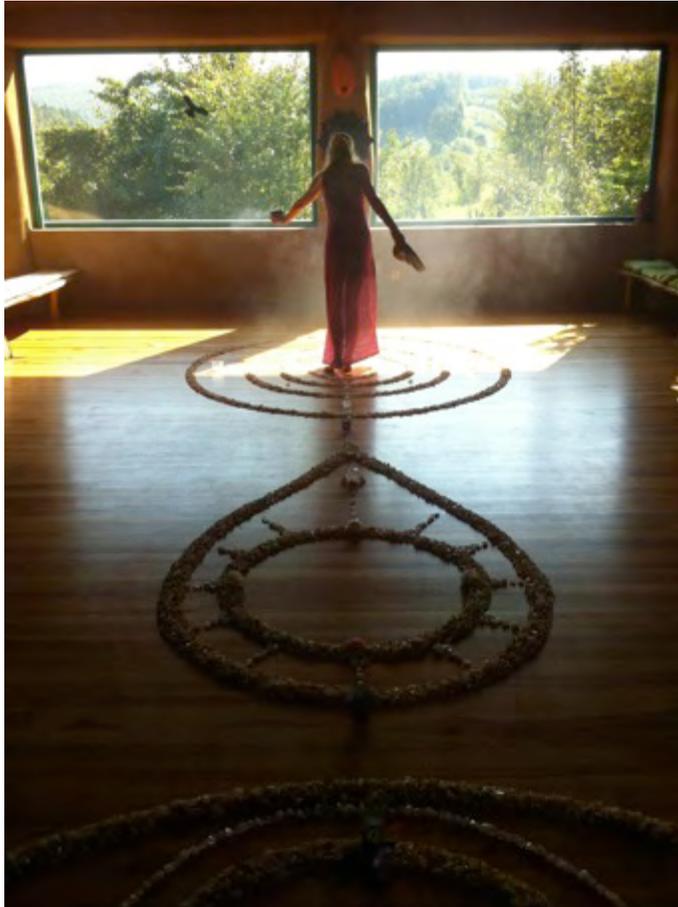

*"As an architect and designer I was intrigued as to how it might be possible to apply the geometry of life to my practice. Michael showed me this and so much more. His insight, experience and practical knowledge helped me to understand how everything is connected, the importance of developing all my senses, and how to design in harmony"*

**April 4<sup>th</sup>-5<sup>th</sup> 9.30-5 p.m.**

**Two-Day Workshop with Michael Rice and Karaimi  
The Geometry of Love**

\$300

**The Geometry of Love**

We invite you to join us on this intensive, experiential journey, which will reveal many secrets about the true nature of life on Earth. We will explore the true purpose of relationship - with each other, parents, children, work, the Living Planet and ourselves.

For most of us, our relationships are not what we most wish for, and even when it seems that everything is in order, our hearts tell us another story. Inside all of us, are deep desires to open fully, love freely, and to be able to give our greatest gifts to another, and the world. But we tend not to live from our hearts, and we fear the changes that may happen when we open to the flowing force of love that we instinctively know will open us to our fullest potential.

Using powerful transformational sacred geometry patterns, guided meditations, ecstatic movement to open the body, discussion and deep sharing, we will guide and support you to release old patterns of thinking and behavior.

This seminar will give you a unique opportunity to enter deeply into the ancestral beliefs and collective programs of fear and limit, which are manifesting in some way within all of our relationships. We will face with challenges on all levels - emotional, mental, physical and spiritual, as we move through and beyond our comfort zones, where no change is possible - crossing into the realm of the truth about partnership with heart.

This seminar will help you to open to and understand the principles of polarity, and support you to download new behavioral consciousness 'software' into your heart, mind and body.

*"These Geometry of Love seminars will open your heart and let you hear the song of your divine soul. Your life will change. Love, freedom and respect for yourself, for others and for life itself will enter your universe!"*

**MONTAUK - LONG ISLAND**

**Depart Wednesday 8.30 am from 240 E 53<sup>rd</sup> Street**

**\$110**

**Includes packed lunch, coach and lectures**

Site of interesting speculation-along with the dozens of books and documentaries!

Montauk is a remote U.S. town located on the very eastern tip of Long Island, New York. High on a hill above the rocky waters of the Atlantic Ocean looms a giant rusted radar tower. It's a ghost relic of the past. It has been referred to as Area 51 east and in the 1970's the base was used for the secret esoteric work of the military (for the purpose of developing psychological warfare techniques and exotic research including time travel, teleportation, remote viewing etc.). The Montauk project is one of the oddest conspiracy theories going. Join a very interesting group of people on our pilgrimage to this enduring site.

Coach departs 8.30 for a full day tour with provided lunch (bring your own drinks). Late arrival back into NYC.

**April 9<sup>th</sup> Thursday evening 7-9.30 pm**

**Wine and Cheese event with Brian Cotnoir.**

***Alchemy: A Thief's Guide to the Emerald Tablet.***

**\$35**

*Emerald Tablet* – the book, the translation, the significance. Talk and Book Presentation.

The *Emerald Tablet* is one of the root texts of alchemy, a brief alchemical work attributed to Hermes Trismegistus. This publication is a collection of new translations by Brian Cotnoir of the earliest extant Arabic and Latin versions with accompanying essay and commentary.

The *Emerald Tablet* is not only a fresh contribution to alchemical studies it is also an example of book art at its finest. Bound in two limited editions of leather and silk, the book draws on the

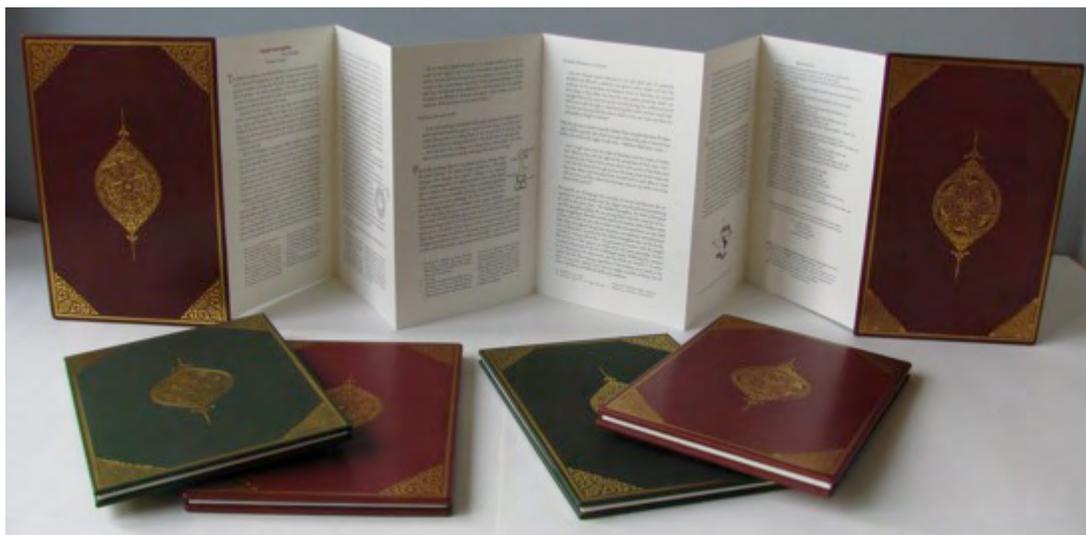

elements of Islamic and Western sacred geometry in the overall design, typesetting and especially in the two cover emblems.

Copies of the *Emerald Tablet* will be available along with other work by Brian Cotnoir.

**Brian Cotnoir** is an alchemist, artist and award-winning filmmaker. Author of *The Weiser Concise Guide to Alchemy*, the *Emerald Tablet*, and *Alchemical Meditations*, he is currently writing his next book, *Alchemy: The Poetry of Matter*. He has presented seminars and workshops around the world on various aspects of the art.

You can order the Emerald Tablet here:

**April 10<sup>th</sup> 9.30-5 p.m.**

**One day workshop A Thief's Guide to the Emerald Tablet.  
Talk, Discussion, and Demonstrations with Brian Cotnoir.  
\$150**

**The *Emerald Tablet***, famous for its declaration “as above, so below,” is a cornerstone text of alchemy. A new translation from the oldest known version of the *Emerald Tablet* will be used as the basis to lay out the fundamentals of alchemy starting with Alexandrian alchemy.

**The morning session**, after a review of alchemical theory, will discuss and demonstrate some of the Alexandrian alchemical practices as it relates to the *Emerald Tablet*. Having this grounding we'll move to Western alchemy.

**The afternoon session** will deepen the theory of the morning by considering the *quintessence* or “fifth essence”. The alchemical theory of John of Rupescissa holds that this very subtle substance permeates all creation. We will examine Rupescissa’s *De Quinta Essentia* (translations of the relevant sections will be given out), discuss its relation to the Emerald Tablet, and consider ways the quintessence can be extracted from various substances such as wine and gold.

**April 11<sup>th</sup>-12<sup>th</sup>-13<sup>th</sup> 9.30-5 pm**

**Practical Alchemy: The Art of Distillation  
and ORMES production with Aurelius Electrum (Canada)**

\$150 each day

Join us for an exploration into the philosophy, theory and practice of alchemical tradition. Learn the history of Hermetic Mysticism and the techniques used by the forefathers of modern chemistry, herbology and medicine. This three day event (with the option of just the first two days) will provide an in depth look at both inner and external alchemy utilizing a wide spectrum of alchemical

teachings including Eastern Vedic and Taoist as well as the Western Hermetic Traditions. We'll look at various laboratory apparatuses, their description, set-up and use, as well as laboratory safety.

Working with the plant kingdom through the art of distillation, we'll create an alchemical menstruum as well as an essential oil for use in future alchemy courses. The goal of this course is to provide you with a foundation for a physical, mental and spiritual understanding of the fundamental mechanisms of Nature.

This is a practical workshop- we are setting up an alchemy lab so you can witness the complete experience of making plant medicines and Ormes. Participants will take home a bottle of rectified mercury from the plant kingdom and a bottle of Ormus.

## **What is ORMUS or ORMES (April 11-12<sup>th</sup>)**

Join us in uncovering the ancient history and modern use of this unique state of matter. ORMUS or m-state materials are thought to be the precious metal elements in a different atomic state.

Learn how you can capture and utilize these amazing elements in your own kitchen. Walk in the footsteps of the ancients and cross the bridge of time into the latest understanding of quantum mechanics, bio-medicinal properties and permaculture applications of these amazing substances.

ORMUS are Anti-aging minerals, the cutting edge of superfood nutrition

Learn the powerful healing effects of these minerals. Learn how to make them in your own home and save hundreds of dollars.

The term ORMUS comes from Orbitally Rearranged Monatomic Elements (ORMEs), an attempt to describe the nature of this unusual phenomenon. The ORME represents a huge subject area, involving state-of-the-art chemistry, physics, physiology and interpretations of Sumerian, Egyptian and other histories including the alchemical western esoteric traditions.

The modern name is ORMUS, ORMES and “White-Gold”. It has also been known as an elixir, Manna, Shewbread, the snot, monatomic elements, AuM, the polymers, m-state, Shem-an-na, micro clusters, super deformed high-spin elements, exotic atoms, Semen of the Gods, ScheFa Food, Bread of the Presence of God, MFKZT, Elixir of Life, the lapis, the Sophic Hydrolith of the Wise, Erinaes Philothes Philolithes, Apa itu, Batu Surgawi, Bubuk Putih, Manna dan Salwa, chrysopoeia, dew, occult gold, aurum potable, water of gold, and The Philosophers’ Stone.

The precious metals known to exist in this 'Ormes' state (known as the “light platinum group”) are cobalt, nickel, copper, ruthenium, rhodium, palladium, silver, and osmium, iridium, platinum, and gold (known as the “heavy platinum group”). These minerals are known as super conductors and can in a monatomic, super deformed, high spin, and low energy state, lose their chemical reactivity and metallic nature, thereby resulting in a state of Superconductivity. These precious metals have the unique ability to remain stable in the monatomic form, which can then lead to

effects ranging from Levitation (weight losses) to Zero-Point Energy applications and to fundamental biological and/or human physiological effects.

**Aurelius Electrum will lecture extensively of these special healing elements and you will learn how to make it in your own home and at the end of the weekend have your own bottle of Ormes to take home.**

## **What Is Alchemy**

We know that chemistry is defined as 'The science of the composition, structure, properties, and reactions of matter, especially of atomic and molecular systems' and that chemistry is the lineal descendent of Mediaeval and Ancient 'Chemistry'. The word alchemy comes from the Arabic 'al kima'. The syllable AL is the Arabic indefinite article, like the Hebrew letter He (hey), meaning 'The'.

Alchemy therefore means 'the chemistry' or the 'higher chemistry', however the definition of the second half of the word has been obscured in history. Some believe the word to have come from the Egyptian word 'chem', meaning 'black' and relating to the description of Egypt as 'The land of the black soil'.

The 'black soil' referring to the silt deposits from the annual flooding of the Nile River. Others believe it more likely to have derived from 'chyma', a Greek word relating to the casting or fusing of metal. There seems to be other related Greek words like 'chymos', meaning 'plant juice', and 'chylos', a similar word but with the attribute of 'taste'.

It appears as if the early roots of working with metals and the extraction of juices from plants were closely linked. The earliest use of the modern word Alchemy is found in the works of Julius Firmicus Maternus, the Astronomer, who lived in the fourth century, in the time of the Emperor Constantine. However, regardless of where the word 'alchemy' began, it has come to mean a very special form of spiritual development.

Alchemy, esoterically and hieroglyphically, the word refers to the dark mystery of the primordial or First Matter (the Khem), the One Thing through which all creation manifests. Alchemy, then, is the

Great Work of nature that perfects this chaotic matter, whether it is expressed as the metals, the cosmos, or the substance of our souls.

Alchemy is one of the world's oldest traditions -- a unique blend of science and spirituality that has the potential to create a new vision of the world. Alchemy offers a way of living in accord with the basic patterns of the universe that can result in magical transformations in your life. Since ancient Egyptian times, alchemists have worked in secret to produce something called the Philosopher's Stone, or the Elixir of Life, what the Egyptian's called Mfkzt, or what Mozes called Manna. The ancient Egyptians used the cone shape to energize their mfkzt, (ORMES) which was described as a white bread made from gold. The mfkzt is probably related to the Biblical manna and shewbread, which may have been charged in the Ark of the Covenant.

All very exciting if you ask me.
